

4444 Calls

This is the call script the Switchboard call handler completes when you dial 4444.

They will ask you these specific questions and you must answer clearly.

- Which Hospital Site are you on?
- Which Emergency Team (or Fast Bleep) do you require?
- Which building are you in?
- Which ward area?
- Which level / floor are you on?

Adult Trauma

Adult trauma calls are attended by:

- Trauma registrar and SHO
- Surgical registrar and SHO
- ITU (airway)
- Radiology
- Porters
- ED consultant/registrar

Trauma call criteria can be found under the Resus section

Paediatric Trauma

Paediatric trauma calls are attended by:

- Trauma registrar and SHO
- Paeds registrar and SHO
- PICU registrar and nurse
- Anaesthetic consultant and ODP
- Radiology
- Porters
- ED consultant/registrar
- ED paed nurse

Major Haemorrhage

Normal script applies but you will also be put through to Blood Bank to answer additional questions (patient details - they will need age and gender at a minimum)

A porter will then be called to deliver the MHP to the specified room

MHP protocol can be found under the Resus section

Stroke Team

Stroke call will be attended by:

- Stroke registrar/consultant in hours - med reg after 2100
- Stroke specialist nurse
- Radiology (will be prepared)

Critical Response

Internal call for

- ED Consultant/Registrar
- Radiology
- Porters

Obstetric Team

Obstetric call will be attended by:

- Obstetrics registrar/consultant
- Senior midwife (bleep holder)

Neonate Team

Neonate call will be attended by:

- Neonatal registrar/consultant
- Neonate ICU nurse

Fast Bleep Specialty

If you have specialist medical emergency (i.e gynae, cardiothoracics, airway) that require immediate attendance, a fast bleep will alert the specialty immediately to attend
